

# DEPARTMENT OF CONSERVATIVE DENTISTRY AND ENDODONTICS

## LIST OF RECENT PROGRAMMES CONDUCTED

### 1. AESTHETIC WEEK

In the month of November, an aesthetic week was planned. The same was executed from 20-11-2017 to 25-11-2017. This treatment programme was conducted to enlighten and bring in an increased awareness regarding various aesthetic restorative treatment options in and around Malappuram, Kottakal and Chattiparamba.

The treatment was carried out at reduced rates for the week. The programme was a success, benefitting a total of 61 patients, where a total of 98 teeth were treated, 2 bleaching cases and a case of tooth jewellery was done. Various enquiries had come up from patient's side regarding treatment facilities available.

## 2. Webinar on “SMILE DESIGN”

It was a pleasure to conduct the college’s first live webinar on **Smile Designing on the 4<sup>th</sup> of march 2022**. We had a total of 60 delegates attending the programme of which 26 registered interns were present.

The speaker **Dr pradeep Shetty MDS, Phd** spoke on the importance of various clinical aspects of anterior esthetic restorations, smile designing taking into consideration inter disciplinary aspects.

The programme was quite informative, was a huge success, and appreciated by one and all.

**Vote of thanks by Dr Aysha,**

**Certificate and memento hand overed to guest speaker by Dr Sam Paul. HoD Department of orthodontics**

**Group photo of organizing committee members with chief guest Dr Sonu**

## **4. THE ART OF ESTHETIC RESTORATION WITH COMPOSITES HELD ON 20 DECEMBER 2022 AT EDUCARE AUDITORIUM**

### CDE PROGRAM ON THE ART OF ESTHETIC RESTORATION WITH COMPOSITES

#### SUMMARY OF EVENTS

The Department of Conservative Dentistry and Endodontics, Educare Dental College, conducted a CDE program on the topic “**The art of esthetic restoration with composites**”, on **20<sup>th</sup> December 2022**, in collaboration **with Dentsply Sirona. Dr Deepak Mehta, MDS, Phd** was the guest lecturer for the day. The program schedule was as follows:

By 8.30 AM Spot Registration for the program was closed.

By 9AM, the program was inaugurated by **Our Principal, Dr Indushekar**, who welcomed the guest speaker, Dr Deepak Mehta who also happened to be his own student. Dr Binu then introduced the speaker to the audience gathered. The Program was initiated by around 9.30AM, and Dr Deepak Mehta took an exhaustive class on Composites and Aesthetic Dentistry, which ranged from topics such as shade selection of composites, in which hue, value, and chroma have a huge role to play, and the duration of time taken to select a shade for a particular tooth in question to the various techniques involved in making the best use of this material, to maintain the beautiful aesthetics of the teeth. Dr Deepak held the audience in raptures with his class, until tea break, which was at 11.45am, and the audience was raring to get back to their seats, and continue with the session. Lunch break came in too soon at 1.30PM, and the audience was once again seen leaving the auditorium rather reluctantly to have lunch.

Post lunch, the audience was enthralled by a live demo session on anterior composite restoration, which included the addition of the finer anatomic details on the tooth, which included the incisal translucency of enamel. This was followed by a brief class on posterior composite restorations and case discussion, after which there was a brief question and answer session, which was won by our intern, Dr Sahil. The program concluded by 5pm, after which the audience informed us that they would love to have a second session with Dr Deepak Mehta on Posterior composites and indirect composite restorations as well. The vote of thanks was delivered by **Dr Harikaran**, HOD, Department of Conservative Dentistry and Endodontics, followed by a personal Thank you speech by our Principal, Dr Indushekar, who presented the memento to Dr Deepak Mehta as a token of our appreciation. Dr Hari handed over the certificate to Mr. Mujaddid, of Dentsply, as a token of our appreciation for his efforts.

The program concluded with an interaction with the guest speaker, Dr. Deepak Mehta, followed by a photograph session. From the feedback received by all the members who attended the program, it was concluded that the event was a grand success.
