An ISO 9001:2015 certified institution

The mission of the Alumni Association is to foster a mutually beneficial relationship as well as to bridge the gap between the Institute and its alumni. The association is responsible for keeping complete record of their professional progress after their graduation from the institute, and information regarding the institute's progress and achievements post their graduation year. To fulfill the objective of the association, meetings are arranged every year and future plans are mutually discussed in the meetings. Moreover, ways in which the alumni could contribute to the institute's development and growth are discussed.

Alumni provide useful insight to the students on current trends in the market and give guidance to the students about the career opportunities and growth in different fields. They also share their personal experiences with students about the ethical practice and expectations, and give valuable tips to become an asset to the community. Alumni visit campus at regular intervals to support students in planning, organizing and executing events successfully. They also extend support and guidance for functioning of various Student Clubs.

Alumni assist Faculty members in promoting the entrepreneurial spirit among the students. Entrepreneurial projects/ventures of the students are discussed with alumni and they extend all technical, marketing and other dental practice related guidance to boost their career. Carrying forward the social responsibility instilled by the College, alumni actively participate in social service. Over the weekends, alumni impart knowledge to the underprivileged and create awareness about the importance of education. This experience is shared by the alumni when they visit the institute and motivate students to continue the spirit of social responsibility.
