vandrum was the guest speaker and the quiz master. Lectures on 'Understanding salivary microbiomes' and 'Clinico-pathological correlations' were delivered by Dr Tharun Jacob and Dr Suhas

Nayak, HOD department of oral pathology, EIDS . Ms. Vismaya Radhakrishnan, Ms. Reethu mohan and Mr. Paul Yohan James were declared as winners for the quiz competition.

SKILL ENHANCEMENT WORKSHOP ON VENEERS

The Department of Prosthodontics, in collaboration with the Alumni association, organized a skill enhancement workshop on the topic of Ceramic Veneers. The workshop took place on the 28th of October, providing an opportunity for dental professionals to enhance their knowledge and skills in the field. It offered a comprehensive learning experience, covering various aspects of the treatment, including patient selection, treatment planning, tooth preparation, material selection, and bond-

ing techniques. Participants had the opportunity to learn from experienced prosthodontists and industry experts who shared their knowledge and insights through interactive lectures, live demonstrations, and hands-on training.

A total of 50 participants had registered for the programme. The diverse range of participants created an enriching learning environment, allowing for the exchange of ideas and experiences among peers. The practical component of the workshop was equally im-

portant, as participants had the chance to develop their skills through hands-on exercises. Under the guidance of expert mentors, attendees practiced tooth preparation techniques using typodont models, followed by the fabrication and customization of ceramic veneers. This hands-on experience allowed participants to refine their technical skills, understand the intricacies of the procedure, and gain confidence in their abilities.

FORENSIC ODONTOLOGY -MYSTERY UNVEILED

The Department of Oral Pathology at EIDS organized a Continuing Dental Education (CDE) programme and hands-on workshop on the 11th of December 2022. The event focused on exploring the field of forensic odontology, with an emphasis on career opportunities, child abuse reporting, legal aspects of dental practice, and age estimation. The keynote speaker for

the programme was Dr. Ashith Acharya, a distinguished expert in Forensic Odontology and the Professor and Head of Forensic Odontology at SDM College of Dental Sciences & Hospital, Dharwad.

Following the morning session, the programme continued with an engaging hands-on workshop on age estimation, a crucial aspect

of forensic odontology. Through the keynote speech and hands-on workshop, participants gained insights into the various career prospects in forensic odontology, acquired knowledge on reporting child abuse cases, understood the legal aspects of dental practice, and developed practical skills in age estimation.

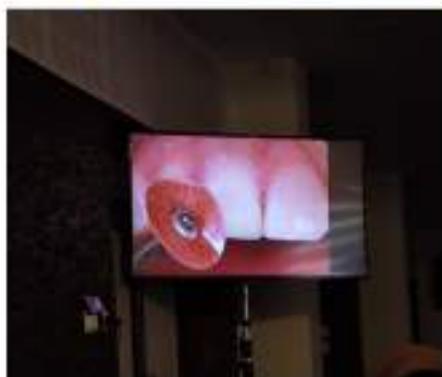

THE ART OF ESTHETIC DENTISTRY WITH COMPOSITES

The Department of Conservative Dentistry and Endodontics, in collaboration with Dentsply Sirona, successfully organized a Continuing Dental Education (CDE) Program on the 20th of December 2022. The highlight of the event was the presence of Dr. Deepak Mehta, an esteemed Professor from

Saveetha Dental College and Hospitals in Chennai. Dr. Mehta, renowned for his expertise in Conservative Dentistry and Endodontics, was the guest lecturer for the day.

The CDE program served as a platform for participants to enhance their understanding and practical skills in Conservative Dentistry and En-

dodontics. Dr. Mehta's engaging presentation covered a wide range of topics, including current trends and techniques. In addition to the valuable insights shared by Dr. Mehta, the collaboration with Dentsply Sirona enabled participants to gain exposure to cutting-edge dental technologies and materials.

CLINICAL ENDODONTICS

The Department of Conservative Dentistry and Endodontics at Educare Dental College successfully organized a highly informative Continuing Dental Education (CDE) program on the topic of "Clinical Endodontics" on the 22nd of March 2023. This program was conducted in collaboration with the esteemed MANI Company. One of the program highlights was the hands-on workshop, where participants had the opportunity to apply the theoretical knowledge gained through live demonstrations. Furthermore, the program incorporated a live demonstration conducted under a dental microscope. This aspect provided participants with a unique opportunity to observe the intricate details of clinical procedures performed by Professor Vinod Kumar. Attendees were able to perform root canal treatment techniques on simulated models. This interactive session allowed participants to refine their skills and gain practical experience in a controlled environment.

CLINICOPATHOLOGICAL MEETINGS
